-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 October 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

1. The newly submitted drawing figures are objected to for the following reasons: on Fig. 9, the connection structure "18" directly above number "27" should be labeled as number "28", and on Fig. 24, there is still no description in the specification of number "1272".

2. Claims 1-20,22-48,50-54 and 60-63 are allowed.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 55 and 57-59 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 55 is indefinite because in line 7, there is no direct antecedent basis for the recitation of "the lumen", and because line 17 recites "a lumen" without any correlation/distinction to "the lumen" recited in line 7. Amend claim 55, at line 7, to recite "a lumen" and amend line 17 to recite either "the lumen" or "said lumen". Claims 57-59 depend from indefinite claim 55 and are indefinite for that reason.

5. Claims 55 and 57-59 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

7. Claims 64 and 65 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by both the degassing process and apparatus of either Hamasaki et al.

Art Unit: 1724

(5,830,261) or (5,888,275), both of which show that a membrane structure for a degassing membrane device can be made from multiple membranes that are folded back and forth over themselves to form a folded configuration, and that such configuration is alternative to spirally wound membranes.

8. As all of the original claims (with appropriate amendment) have either been allowed or indicated to be allowable with appropriate amendment (claims 55 and 57-59), any remarks made by applicants in regard to either the Ootani et al. (6,168,648) or Kirch et al. (WO99/32186) reference are moot and need not be answered by the examiner. However, note that the two newly applied references to newly submitted claims 64 and 65 do indeed show that a degassing membrane device can be made by using membranes which are folded back and forth over themselves to form a folded configuration, which configuration is alternative to a configuration made from spiral winding of the membranes upon themselves. Any other remarks made by applicants in their Amendment and not specifically commented upon by the examiner, have been considered.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1724

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

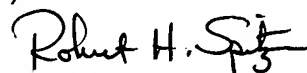

10. Applicants response to this Office action should also include the following editorial changes: page 4, line 21, "is a is a" should be "is a"; page 9, line 30, "liquid" should be inserted before "delivered"; page 22, line 30, "at and angle" should be "at an angle"; and, on page 23, line 25, "includes an a" should be "includes a".

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert H. Spitzer whose telephone number is (571) 272-1167. The examiner can normally be reached on M-Th (5:30AM-4:00PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on (571) 272-1166. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
